INSIST VILLA'S BODY HAS BEEN EXHUMED

GIGANTIC CONFLICT
NOT NEARING END

World's Battles Pale Into Insignificance in Face of Nine Week's Bloodshed

(By Associated Press.)

LONDON, Apr. 17.—The most gigantic conflict in the history of the world, the battle of Verdun, has endured for the ninth week without any signs of either side withdrawing or showing any evidence of relinquishing a foot of ground. The enormous scale of the German preparations, the execution of the attack, the unparalleled

concentration of artillery and sustained ferocity marks the battle as one of the greatest efforts of the war. Verdun is one of the strongest fortresses in Europe and the cornerstone of the French defenses against German encroachment. The French assert that Germans have lost 200,000 killed, wounded or captured and the Germans claim that the French casualties reach 150,000.

STORY OF BANDIT'S
END MAY BE TRUE

Carranza Troops Were First to Join in the Attack on Americans at Parral

(By Associated Press.)

WASHINGTON, Apr. 17.—SECRETARY BAKER HAS RECEIVED A NACO DISPATCH SAYING VILLA WAS LAST SEEN HEADING IN THE DIRECTION OF THE PLACE WHERE REPORTS YESTERDAY SAID HE WAS BURIED.

THE DISPATCH IS TAKEN TO MEAN THAT REPORTS OF VILLA'S DEATH MIGHT BE TRUE.

(By Associated Press.)

WASHINGTON, Apr. 17.—AS THE HOURS PASS WITHOUT A CONFIRMATION OF THE STORY OF THE FINDING OF THE BODY OF VILLA, WASHINGTON BECOMES MORE DOUBTFUL.

THE BODY IS SUPPOSED TO HAVE REACHED CHIHUAHUA CITY BY SPECIAL TRAIN LAST NIGHT, BUT CONSUL LETCHER HAS NOT EVEN FORWARDED RUMORS AS TO VILLA'S DEATH.

GENERAL PERSHING'S REPORT SHOWS THE CARRANZISTAS NOT ONLY JOINED IN THE ATTACK UPON THE DETACHMENT OF AMERICAN TROOPS AT PARRAL, BUT FOLLOWED THEM SEVERAL MILES AS THEY WITHDREW TO AVOID A CLASH.

(By Associated Press.)

MEXICO CITY, Apr. 17.—THE WAR OFFICE HAS RECEIVED A DISPATCH GIVING FURTHER DETAILS FROM PARRAL. IT WAS ASSERTED THAT AN AMERICAN ARMY OFFICER ADMITTED HIS CULPABILITY FOR ENTERING PARRAL. THE DISPATCH ALSO SAID THE AMERICANS HAD CEASED THEIR MOVEMENT SOUTHWARD UNTIL SUCH TIME AS NEGOTIATIONS BETWEEN THE UNITED STATES AND MEXICO ARE TERMINATED.

(By Associated Press.)

SAN ANTONIO, Apr. 17.—GENERAL VILLAREAL IS ATTEMPTING TO START A NEW REVOLUTION AGAINST CARRANZA, ACCORDING TO MEXICAN ADVICES.

TAKES THE SENATE
INTO HIS CONFIDENCE

CONGRESS KEPT FULLY INFORMED OF THE PROGRESS OF NEGOTIATIONS

(By Associated Press.)

WASHINGTON, Apr. 17.—The president, having completed his communication to Germany, sent for Chairman Stone of the senate foreign relations committee for a conference, which probably will be held tonight. This is in line with the president's policy of keeping congress informed of the progress of negotiations.

NEGRO BEING TAKEN TO PRISON
LEAPS FROM TRAIN WINDOW

DAYTON, Apr. 17.—While Sheriff Ingalls of Esmeralda county was bringing two prisoners, one a white man and the other a negro, from that county to the state prison, one of them, the negro, made his escape, and as far as is known is still at large.

Sheriff Ingalls had transferred the men from the S. P. train to the stub train at Churchill and when a few miles from the latter place the negro asked permission to go to the toilet and it was granted. When he failed to return the sheriff investigated and found that his man had made his escape from the window. The white man was brought to Dayton and then the sheriff and Deputy W. A. Donnelly of Dayton secured an auto and started back to hunt the negro. Up to a late hour no word was received of his capture.

WASHOE COUNTY TREASURER
REMOVED FROM OFFICE

Because of withdrawal of bondsmen, representing over 50 per cent of his total bond, Harry H. Hill has been declared by the county commissioners to have ceased automatically, under the statute, to be treasurer of Washoe county.

The board took action following Hill's sudden departure for San Francisco several days ago. An investigation showed the funds to be all right.

DEATH OF VILLA
RUMOR REVIVED

REPORT THAT REMAINS WILL BE EXHUMED AND TAKEN TO CHIHUAHUA

(By Associated Press.)

EL PASO, Apr. 17.—Confirmation of reports that Villa's body was exhumed at San Francisco Borja and is being taken to Chihuahua, still lack confirmation at Carranza headquarters, Juarez. If Villa is dead, the Americans will be withdrawn.

(By Associated Press.)

COLUMBUS, Apr. 17.—General Pershing has asked for more civilian scouts. This is taken as an indication that the report that Villa's body is not confirmed.

NARROW ESCAPE OF
THE CROWN PRINCE

SHELL AT THE VERDUN FRONT FALLS PERILOUSLY CLOSE TO COMMANDER

(By Associated Press.)

GENEVA, Apr. 17.—It is reported that the German crown prince who began the drive on Verdun February 21st had another escape recently at the Verdun front when a French shell exploded near by.

REPRIMANDED FOR
EXPOSING OFFICER

COLONEL GOODIER, MAN WHO REFORMED AVIATION SERVICE, SET BACK

(By Associated Press.)

WASHINGTON, Apr. 17.—The president has approved of the recommendation of the secretary of war imposing a sentence of reprimand on Lieut. Col. Goodier, judge advocate of the western department of the army, in connection with charges over the conduct of the aviation school at San Diego.

Secretary Baker announced he had censured General Scriven, chief of the signal corps and Colonel Reber, chief of the aviation section for improprieties in connection with aviation.

Secretary Baker announced also that Colonel Reber has been relieved from duty as chief of the aviation section and that the question of management of army aviation will be reviewed by a committee of the general staff.

RANCHMAN ADMITS GUILT

A sensation was sprung in the Sam Bachman horse stealing case when Lon Duval, a Ruby Valley rancher, who was arrested last Monday for complicity in the case, entered a plea of guilty and was sentenced to a term of one to fourteen years in the state prison.—Elko Independent.

TIN IS FOUND IN
TUNGSTEN MINE

ANOTHER METAL ADDED TO THE LONG LIST PRODUCED IN NEVADA

Tin in commercial quantities has been found associated with tungsten at the Noble mine operated by the Atkins-Kroll company near Sodaville. This is one of the most important discoveries in the United States as tin is one of the few metals in constant demand which has defied the efforts of prospectors.

In concentrating the tungsten ore the manager observed certain heavy particles which carried almost as strong specific gravity as the tungsten and he concluded to investigate with the result that he was rewarded with a showing of cassiterite running 1½ per cent and concentrating to 5.4 per cent on the tables. This is better than any showing of the metal obtained in this country and is good enough to justify further exploration for the purpose of establishing the source of the metal and to determine if the quantity could be increased. The saving effected returns the company about \$26 per ton of concentrates.

The chief supply of tin for the world is Burma and Bolivia. The latter republic is the principal source of supply for the United States and it was only a year ago that the Tonopah Mining company investigated the mines of Bolivia with the intention of taking an option on some of the leading producers. With this object in view W. W. Charles, comptroller of the company and several engineers visited South America, but nothing was done in the direction of acquiring control.

Tin in small quantities has been shipped from the Black Hills and a small deposit near Cape Prince of Wales was located eight years ago by Joseph H. Hutchinson, former lieutenant governor of Idaho, who was one of the main spirits in Goldfield during the boom of 1906.

ONE AMERICAN WOUNDED
ON THE BARK IMPERATOR

(By Associated Press.)

WASHINGTON, Apr. 17.—One of the two Americans aboard the Russian Bark Imperator from Gulf Port for Marseilles was wounded when the vessel was fired upon by an Austrian submarine, according to official advice.

SWISS STAY AT HOME

(By Associated Press.)

ZURICH, Switzerland, Apr. 15.—Switzerland's emigration in 1915 was the lowest in forty years. Only 1,976 persons left the country to cross the seas; 1,547 of them going to the United States.

PRODUCTION FOR MARCH

The net production for the Tonopah Belmont Development company for the month of March was \$105,000 and the Jim Butler \$24,000.

RUPTURE IMPENDING
OVER SUBMARINES

Diplomatic Relations with Germany May be Terminated on Receipt of Message

(By Associated Press.)

WASHINGTON, Apr. 17.—The president has practically completed consideration of his forthcoming communication to Germany, which probably will go to Berlin this afternoon or tomorrow. The president has been steadily engaged on the note for two days and missed church yesterday, spending his time examining the evidence

submitted by Secretary Lansing. The document, official said, will press the submarine issue to a decision. It was reiterated that the Sussex case would form only one link in the chain of evidence. It is believed that only the prompt acquiescence by Germany in the position taken by the United States can prevent a break in diplomatic relations.

GUNS LEVELED ON
DEAD MAN'S HILL

ARTILLERY ENGAGEMENTS RAGING WITH GREAT INTENSITY IN SEVERAL PLACES

(By Associated Press.)

PARIS, Apr. 17.—The French positions in Avocourt wood and front from Dead Man's hill to Cumieres are being bombarded. No infantry attacks have occurred. East of the Meuse there is artillery activity in Haudremont wood.

ORE IN MIDWAY
BOOSTS STOCK

OVER FIVE FEET OF COMMERCIAL ORE CUT IN THE OLD MINE

One of the most important of the series of splendid developments that have recently taken place in Tonopah is the discovery of a vein in the south crosscut on the 800 level six hundred feet from the new shaft of the Midway Consolidated Mining company. This is the second vein that has been cut in this working. The former was not large, but carried shipping values.

The new strike was made Saturday night. By this morning the crosscut had advanced five and a half feet and the face was still in ore of about \$20 grade, with the drill crunching through the quartz.

It is not yet known whether or not the ledge is one of those hitherto found in other properties. It may be entirely a new find. The quartz is nearly pure white and the sulphides shine in pleasing contrast. There is no water to impede operations and the two shifts will continue operations rapidly.

While the crosscut is being forged ahead a drift will be run on the ore and later a second will be sent out. The vein appears to be exactly east and west and if such proves to be the case the company will have the ledge for a long distance, up in the thousands of feet. The vein is dipping toward the shaft and already a heading is being put out on the 1100 level, where it is probable that the vein will be cut about 400 feet from the shaft.

H. C. Brougher, president of the Midway, when asked for a statement this morning said: "I don't care to say anything about assays at this time. We have had so many disappointment about the Midway that I prefer to wait until after we prove beyond a doubt that we have opened a body of commercial ore."

IMMIGRATION BILL
GOES TO SENATE

AMENDED SO AS NOT TO INTERFERE WITH POLITICAL REFUGEES

(By Associated Press.)

WASHINGTON, Apr. 17.—The house immigration bill containing the hard fought literacy test but with amendments said to meet the president's objection to the section excluding political offenders was reported to the senate today with a recommendation for passage.

HATS ARE DISCARDED
BY WORKING PEOPLE

HIGH PRICES OF WOOL MAKE FELT HEADGEAR TOO EXPENSIVE

(By Associated Press.)

VIENNA, Apr. 17.—Caps are fast replacing hats in Vienna. As is known to all observing travelers, Vienna, alone among the great cities of Europe, has hitherto been conspicuous from the fact that all its men and boys insisted on wearing hats, disdaining the cheap and comfortable cap that is popular among among the working classes in London, Berlin and Paris. Austria has always possessed a large hat industry and hats were almost as cheap as caps here, but the war has caused a shortage of wool and the cheap felt hats have doubled in price. The result is an increasing number of converts to the cap.

GERMAN KNITTED GOODS
BARRED FROM ENGLAND

(By Associated Press.)

LONDON, April 17.—According to the Outfitter, organ of the furnishing trade in England, American and Japanese hosiery and underwear are rapidly usurping the place formerly held by German manufacturer in the world's markets. British makers, it is said, are apparently unable to keep up with the demand, even in their own capacity. The Japanese products are said to be of excellent quality and workmanship.

today, 20 per cent.		

TWO MONTHS' GRACE
WITH LIQUOR LAW

MANITOBA WETS WANT TIME IN WHICH TO DISPOSE OF STOCK

(By Associated Press.)

WINNIPEG, Can., Apr. 17.—A movement is under way among liquor dealers in Manitoba, which voted out its saloons at an election last month, to petition the government for two months of grace in order to dispose of stock on hand. Should the petition meet with favor, the province will go "dry" until August 1.

"We have been with you for two score years, and another 60 days will matter little," is the plea of the liquor dealers.

On the other hand, the prohibition leaders hotly protest against any extension of time. They point to the fact that more than three fourths of Canadian territory already has voted out saloons and confidently predict that before the new year Quebec alone among the provinces will retain the liquor licensing system and that even here licensing will be restricted to Montreal, Quebec and a number of large urban centers.

INSTALLING FIRE HYDRANTS

Ten of the recently ordered fire hydrants have arrived and the work of installation has begun. Nearly all the pipe for the main fire line from the new tanks has been hauled to the ground and the work of laying began this morning.
